Restful API

User Services

Login

Service name	Login		
Input type	POST		
Service URL	/edugame/login		
Parameters	NAME	Description	
	User u	User object containing username and password.	
Example request	POST /edugae/login { "username" : "IsmailAhmed" , "password" : "12345678"		
Example response	<pre> { "name": "Ismail Ahmed", "gender": "Male", "age": 21, "email": "ismail@ismail.edu", "username": "Ismail_Ahmed", "password": "12345678", "identity": "Teacher" } </pre>		

Register Student

Service name	Register Student		
Input type	POST		
Service URL	/edugame/register/student		
Parameters	NAME	Description	

CS352: Phase 2 – Gamers++ <edugame> Phase 2- document

	Student s	Student object containing all his/her information.	
Example request	POST /edugame/register/student <pre>{ "name": "Alaa Atef", "gender": "Female", "age": 20, "email": "alaa@alaa.com", "username": "AlaaAtef", "password": "12345678", "identity": "Student" }</pre>		
Example response	<pre>{ "name": "Alaa Atef", "gender": "Female", "age": 20, "email": "alaa@alaa.com", "username": "AlaaAtef", "password": "12345678", "identity": "Student" }</pre>		

Register Teacher

Service name			
Input type	POST		
Service URL	/edugame/register/teacher		
Parameters	NAME	Description	
	Teacher t	Teacher object containing all	

CS352: Phase 2 – Gamers++ <edugame> Phase 2- document

	his/her information.	
Example request	POST /edugame/register/teacher <pre>{ "name": "Alaa Atef", "gender": "Female", "age": 20, "email": "alaa@alaa.edu", "username": "AlaaAtef", "password": "12345678", "identity": "Teacher" }</pre>	
Example response	<pre>{ "name": "Alaa Atef", "gender": "Female", "age": 20, "email": "alaa@alaa.edu", "username": "AlaaAtef", "password": "12345678", "identity": "Teacher" }</pre>	

Course Services

Show Courses

Service name	Show Courses		
Input type	GET		
Service URL	/edugame/courses		
Parameters	NAME	Description	

CS352: Phase 2 – Gamers++ <edugame> Phase 2- document

Example request	GET /edugame/courses
Example response	<pre>[{ "courseName": "C++", "courseOwner": { "name": "Alaa Atef", "gender": "Female", "age": 20, "email": "alaa@alaa.edu", "username": "AlaaAtef", "password": "12345678", "identity": "Teacher" }, "description": "C++ Course for dummies", "students": [] }, { "courseName": "Java", "courseOwner": { "name": "Ismail Ahmed", "gender": "Male", "age": 21, "email": "ismail@ismail.edu", "username": "Ismail_Ahmed", "password": "12345678", "identity": "Teacher" }, "description": "Java Course for dummies", "students": [] }]</pre>

CS352: Phase 2 – Gamers++ <edugame> Phase 2- document

	}
]

Show Teacher Courses

Service name	Show Teacher Courses		
Input type	GET		
Service URL	/edugame/Courses/{teacherUsername}		
Parameters	NAME	Description	
	PathVariable: String teacherUsername	Teacher username to show his/her courses	
Example request	GET /edugame/Courses/Ismail_Ahmed		
Example response	<pre>[{ "courseName": "Java", "courseOwner": { "name": "Ismail Ahmed", "gender": "Male", "age": 21, "email": "ismail@ismail.edu", "username": "Ismail_Ahmed", "password": "12345678", "identity": "Teacher" }, "description": "Java Course for dummies", "students": [] }]</pre>		

CS352: Phase 2 – Gamers++ <edugame>

Phase 2- document

]
--	---

Show Student Courses

Service name	Show Student Courses		
Input type	GET		
Service URL	/edugame/enrolledCourses/{studentUsername}		
Parameters	NAME	Description	
	PathVariable: String username	Student Username to show courses in which he/she enrolled.	
Example request	GET /edugame/enrolledCourses/KarimEhab		
Example response	<pre>[{ "courseName": "Java", "courseOwner": { "name": "Ismail Ahmed", "gender": "Male", "age": 21, "email": "ismail@ismail.edu", "username": "Ismail_Ahmed", "password": "12345678", "identity": "Teacher" }, "description": "Java Course for dummies", "students": [{ "name": "Karim Ehab",</pre>		

CS352: Phase 2 – Gamers++ <edugame> Phase 2- document

	<pre> "gender": "Male", "age": 20, "email": "karim@karim.com", "username": "KarimEhab", "password": "12345678", "identity": "Student" }] }</pre>
--	---

Get Course

Service name	Get Course		
Input type	GET		
Service URL	/edugame/courses/{courseName}		
Parameters	NAME	Description	
	PathVariable: String courseName	Course Name to get	
Example request	<pre>GET /edugame/courses/Java</pre>		
Example response	<pre> { "courseName": "Java", "courseOwner": { "name": "Ismail Ahmed", "gender": "Male", "age": 21, "email": "ismail@ismail.edu", "username": "Ismail_Ahmed", "password": "12345678", "identity": "Teacher" } },</pre>		

CS352: Phase 2 – Gamers++ <edugame> Phase 2- document

	<pre>"description": "Java Course for dummies", "students": [] }</pre>
--	---

Add Course

Service name	Add Course		
Input type	POST		
Service URL	/edugame/courses/{teacherUsername}/addCourse		
Parameters	NAME	Description	
	PathVariable: String teacherUsername	Teacher username: the owner of the course	
	Course c	The course to be added	
Example request	POST /edugame/courses/ismail_Ahmed/addCourse { "name": "Java", "description": "Java Course for dummies" }		
Example response	{ "courseName": "Java", "courseOwner": { "name": "Ismail Ahmed", "gender": "Male", "age": 21, "email": "ismail@ismail.edu", "username": "Ismail_Ahmed", "password": "12345678", "identity": "Teacher"		

CS352: Phase 2 – Gamers++ <edugame> Phase 2- document

	<pre> }, "description": "Java Course for dummies", "students": [] } </pre>
--	--

Enroll Student

Service name	Enroll Student		
Input type	GET		
Service URL	/edugame/courses/{courseName}/enroll/{studentUser name}		
Parameters	NAME	Description	
	PathVariable: String courseName	Course Name.	
	PathVariable: String studentUsername	Student Name.	
Example request	GET /edugame/courses/Java/enroll/KarimEhab		
Example response	true		

Get Unenrolled Courses

Service name	Get unenrolled Courses		
Input type	GET		
Service URL	/edugame/unenrolledCourses/{studentUsername}		
Parameters	NAME	Description	
	PathVariable: String studentUsername	Student Username to show course in which he/she hasn't	

CS352: Phase 2 – Gamers++ <edugame> Phase 2- document

		enrolled yet.	
Example request	GET /edugame/unenrolledCourses/KarimEhab		
Example response	<pre>{ "courseName": "C++", "courseOwner": { "name": "Alaa Atef", "gender": "Female", "age": 20, "email": "alaa@alaa.edu", "username": "AlaaAtef", "password": "12345678", "identity": "Teacher" }, "description": "C++ Course for dummies", "students": [] }</pre>		

Game Services

Get Game

Service name	Get Game		
Input type	GET		
Service URL	/edugame/courses/games/{gameName}		
Parameters	NAME	Description	
	PathVariable String gameName	Game Name that we want to get its data.	
Example request	GET /edugame/courses/games/HelloWorldC++		
Example	{		

CS352: Phase 2 – Gamers++ <edugame> Phase 2- document

response	<pre>"name": "HelloWorldC++", "description": null, "type": "TorF", "levels": [{ "levelName": "C++ basic", "question": "cout<< prints end line?", "number": 1, "rightAnswer": "True", "answers": ["True", "False"] }, { "levelName": "C++ operations", "question": "x=5; cout<<x++ returns 6?", "number": 2, "rightAnswer": "False", "answers": ["True", "False"] }], "gameOwner": { "name": "Alaa Atef", "gender": "Female", "age": 20, "email": "alaa@alaa.edu", "username": "AlaaAtef",</pre>
----------	---

CS352: Phase 2 – Gamers++ <edugame> Phase 2- document

	<pre> "password": "12345678", "identity": "Teacher" }, "levelNo": 2, "course": { "courseName": "C++", "courseOwner": { "name": "Alaa Atef", "gender": "Female", "age": 20, "email": "alaa@alaa.edu", "username": "AlaaAtef", "password": "12345678", "identity": "Teacher" }, "description": "C++ Course for dummies", "students": [] } } </pre>
--	--

Add game

Service name	Add Game		
Input type	POST		
Service URL	/edugame/courses/{teacherUsername}/{courseName}/games/addGame		
Parameters	NAME	Description	
	PathVariable String teacherUsername	Username of the teacher (owner) of the game.	
	PathVariable	Course Name	

CS352: Phase 2 – Gamers++ <edugame> Phase 2- document

	<table> <tr> <td>String courseName</td><td>that we wish to add the game in.</td></tr> <tr> <td>Body: Game g</td><td>The game itself.</td></tr> </table>	String courseName	that we wish to add the game in.	Body: Game g	The game itself.
String courseName	that we wish to add the game in.				
Body: Game g	The game itself.				
Example request	POST /edugame/courses/AlaaAtef/C++/games/addGame Body: <pre>{ "name": "HelloWorldC++", "type": "TorF", "levelNo": 2 }</pre>				
Example response	true				

Get Games of Course

Service name	Get Games of Course		
Input type	GET		
Service URL	/edugame/courses/{courseName}/games		
Parameters	NAME	Description	
	PathVariable String courseName	The course to get its games.	
Example request	GET /edugame/courses/C++/games		
Example response	[{ "name": "HelloWorldC++", "description": null, "type": "TorF", "levels": [{ "name": "HelloWorldC++", "description": null, "type": "TorF", "levels": [{ "name": "HelloWorldC++", "description": null, "type": "TorF", "levels": [{ "name": "HelloWorldC++", "description": null, "type": "TorF", "levels": [{ "name": "HelloWorldC++", "description": null, "type": "TorF", "levels": [{ "name": "HelloWorldC++", "description": null, "type": "TorF", "levels": [{ "name": "HelloWorldC++", "description": null, "type": "TorF", "levels": [] }] }] }] }] }] }]]		

CS352: Phase 2 – Gamers++ <edugame> Phase 2- document

	<pre>{ "levelName": "C++ basic", "question": "cout<< prints end line?", "number": 1, "rightAnswer": "True", "answers": ["True", "False"] }, { "levelName": "C++ operations", "question": "x=5; cout<<x++ returns 6?", "number": 2, "rightAnswer": "False", "answers": ["True", "False"] }], "gameOwner": { "name": "Alaa Atef", "gender": "Female", "age": 20, "email": "alaa@alaa.edu", "username": "AlaaAtef", "password": "12345678", "identity": "Teacher" }, },</pre>
--	---

CS352: Phase 2 – Gamers++ <edugame> Phase 2- document

	<pre> "levelNo": 2, "course": { "courseName": "C++", "courseOwner": { "name": "Alaa Atef", "gender": "Female", "age": 20, "email": "alaa@alaa.edu", "username": "AlaaAtef", "password": "12345678", "identity": "Teacher" }, "description": "C++ Course for dummies", "students": [] } }] </pre>
--	---

Level Services

Get Level

Service name	Get level		
Input type	GET		
Service URL	/edugame/courses/games/{gameName}/levels/{levelNo}		
Parameters	NAME	Description	
	PathVariable String gameName	Game Name that the level belongs to.	
	PathVariable	Level number	

CS352: Phase 2 – Gamers++ <edugame> Phase 2- document

	int levelNo	in the game.	
Example request	GET /edugame/courses/games/HelloWorldC++/levels/1		
Example response	<pre>{ "levelName": "C++ basic", "question": "cout<< prints end line?", "number": 1, "rightAnswer": "True", "answers": ["True", "False"] }</pre>		

Get Levels

Service name	Get levels		
Input type	GET		
Service URL	/edugame/courses/games/{gameName}/levels		
Parameters	NAME	Description	
	PathVariable String gameName	Game Name that we want to get its levels.	
Example request	GET /edugame/courses/games/HelloWorldC++/levels		
Example response	<pre>[{ "levelName": "C++ basic", "question": "cout<< prints end line?", "number": 1, "rightAnswer": "True", "answers": [</pre>		

CS352: Phase 2 – Gamers++ <edugame> Phase 2- document

	<pre> "True", "False"] }, { "levelName": "C++ operations", "question": "x=5; cout<<x++ returns 6?", "number": 2, "rightAnswer": "False", "answers": ["True", "False"] }] </pre>
--	---

Add Level

Service name	Add level		
Input type	POST		
Service URL	/edugame/courses/games/{gameName}/levels/addLevel		
Parameters	NAME	Description	
	PathVariable String gameName	Game Name that we want to add a level to.	
	Body: Level I	The level to be added.	

CS352: Phase 2 – Gamers++ <edugame> Phase 2- document

Example request	POST /edugame/courses/games/HelloWorldC++/levels/addLevel Body: <pre>{ "levelName": "C++ operations", "question": "x=5; cout<<x++ returns 6?", "number": 2, "rightAnswer": "False", "answers":["True", "False"] }</pre>
Example response	

Achievement Services

Show Achievements

Service name	Show Achievements		
Input type	GET		
Service URL	/edugame/achievements/{username}		
Parameters	NAME	Description	
	PathVariable String username	Username of the user that we want to get his/her achievements.	
Example request	/edugame/achievements/KarimEhab		
Example	[

CS352: Phase 2 – Gamers++ <edugame> Phase 2- document

response	<pre>{ "score": 100, "student": { "name": "Karim Ehab", "gender": "Male", "age": 20, "email": "karim@karim.com", "username": "KarimEhab", "password": "12345678", "identity": "Student" }, "gameinAch": { "name": "Ta7meer", "description": "2atta3 swabe3 aw chipsy", "type": "true-false", "levels": [{ "levelName": "chipsy", "question": "yo7amar fi zobda?", "number": 2, "rightAnswer": "False", "answers": ["True", "False"] }, { "levelName": "swabe3", "question": "tonqa3 elswabe3 fi ma2 w mal7?",</pre>
